

OCCUPATIONAL HYGIENE SOLUTIONS

HAND WASH & DISINFECTION

In the food processing industry personnel hygiene is of highest importance and starts with cleaning and disinfecting hands.

We offer a range of high quality hand cleaning and disinfection solutions that set new standards in terms of efficiency, eco-friendliness and design.

HAND DRYER

For optimal germ reduction belongs after washing the hand drying.

Our hand drying units ensure hygienic drying – either with paper towels or warm air.

SOLE & BOOT CLEANING

Cleaning soles and boots is one of the most important hygiene measures for access to production areas in the food industry or other hygienically sensitive areas.

We offer the perfect sole and boot cleaning system for every customers' need: from simple sole cleaners, up to complete hygiene stations.

ENTRANCE CONTROL SYSTEMS

Our hand cleaning and disinfection control systems, safeguard controlled access to sensitive areas that have special hygiene requirements.

WHY IS OCCUPATIONAL HYGIENE IMPORTANT?

- YOU WILL PREVENT THE SPREAD OF BACTERIA AND VIRUSES
- YOUR EMPLOYEES WILL BE HEALTHIER
- YOUR COMPANY IMAGE WILL IMPROVE
- YOU CAN REDUCE SLIPS, TRIPS, AND FALLS
- YOUR EMPLOYEES WILL BE HAPPIER

SOLE CLEANING WITH HAND CLEANING & DISINFECTION STATIONS

Our hygiene stations combine sole cleaning with controlled hand cleaning and disinfection and thus enable perfect fast track personnel hygiene and controlled access.
